

Part 2 / 52-inch frame - The Jagged Edge

To make the frame, **SEW** together the square that you have made in four rows of eleven each, with the triangles all pointing in one direction, and a quarter-square at the middle of each row. If you are using a mixture of fabrics, arrange the rows in a pleasing layout before stitching.

Add the last four at the ends of two rows as corners. Secure exposed seam ends, **PRESS** and **RESERVE**.
